International Font Examples

This page contains examples of text using international character sets.
In order for the international characters to appear correctly AlbumEasy must be configured to use Unicode(UTF-8) Character Encoding.
This is the default setting. However, it can be changed via the configuration button on the toolbar.

The next two lines of text contain Cyrillic and Hebrew using the free DejaVu Sans font:

Cyrillic: АБВГДЕЖЗИЙКЛМНОПРСТУФХЦЧШЩЪЫЬЭЮЯ
Hebrew: אבגדהוזחטיךכלמנסעף‌פץצקרשת

Un Batang used below is a free font that supports Korean as well as some Chinese and Japanese characters:

This is traditional Chinese text: 這是繁體中文文本
This is Japanese text: これは日本語のテキストです
This is Korean text: 이것은 한국어 텍스트입니다.
